SKILLS

PROGRAMMING LANGUAGES

- Java – Advanced
- C++ – Experienced
- Python – Experienced
- C# – Intermediate
- JavaScript – Intermediate

FRAMEWORKS & TOOLS

- React.js – Experienced
- Node.js – Experienced
- Unity – Experienced
- Unreal Engine – Intermediate
- SQL / MySQL / SQLite – Intermediate
- MAVLink – Intermediate
- OpenCL – Intermediate

DİĞER

- Git
- Word / Excel / PowerPoint
- Agile / Scrum
- Object-Oriented Programming
- UML & Software Design
- Machine Learning
- Networking Fundamentals

LANGUAGES

- Turkish - Native
- English - C2 (Fluent)
- Japanese - A1
- German - A2

SELECTED PROJECTS

Unmanned Surface Vehicle
Teknofest 2024 - Teknofest 2025
- Participated in the unmanned surface vehicle competition
- Worked as the software team lead
- Achieved 5th and 8th place results over two years

Malzahar
Personal Project
- Secure file synchronization client developed using C++
- Encrypted and signed data transfer using RSA, AES-GCM and HMAC
- Designed to communicate with the Spring Boot–based Nexus server

Nexus
Personal Project
- Portfolio and secure file transfer server developed using Spring Boot
- Provides RSA + HMAC authenticated and AES-encrypted API
- Uses SQLite database management with Spring Data JPA
- Personal server accessible via Cloudflare Tunnel

Janus
Personal Project
- A C++-based system that enables transferring various file types over Wi-Fi
- Designed as an infrastructure project for other personal projects
- Built to support applications, telemetry connections, USB communication and internet development

Theia
Personal Project
- Developed a virtual monitor system on Windows
- Allows sharing the screen with Android devices via USB or Wi-Fi
- Built mainly for personal use

MOBA Manager
Personal Project – Ongoing
- Currently developing a MOBA Manager game inspired by the Football Manager series that is being implemented using Java
- Uses machine learning algorithms to simulate player behavior and match results

CERTIFICATES

- Finantial Accounting Fundamentals - University of Virginia
- Software Engineering: Implementation and Testing - The Hong Kong University of Science and Technology
- Software Engineering: Software Design and Project Management - The Hong Kong University of Science and Technology
- Software Engineering: Modeling Software Systems using UML - The Hong Kong University of Science and Technology
